The Ethics Of COVID-19 Vaccine Prioritization: Who, What When, Where and How?

This presentation and discussion will outline the ethical principles that underpin vaccine prioritization in B.C. and how these principles support the distribution of vaccine provincially and nationally.

Learning objectives:

- Learn about some of the ethical considerations for the allocation of the COVID-19 vaccine.
- Understand some of the logistical & epidemiological factors that affect allocation within BC.
- Discuss key ethical considerations regarding vaccine implementation and public perception

Presenter

Alice Virani, MA (Oxon), MS, MPH, PhD

Director, Clinical Ethics Service, Provincial Health Services Authority of BC
Clinical Assistant Professor, Dept. of Medical Genetics, UBC
