Digital Health Services to Improve Financial Protection and Equitable Access to Care

Learning objectives:

1. Understand how intentionally designed digital health services can improve financial protection and equitable access to care.
2. Apply financial protection concepts to evaluate the impacts of digital health programs in Indigenous, rural, and remote communities.

Presenter

Sonya Cressman, PhD MBA

Evaluation Lead | Digital Emergency Medicine

Department of Emergency Medicine | Faculty of Medicine

University of British Columbia

Adjunct Professor | Simon Fraser University
